

A DAY IN THE LIFE...

Each day at Helping Hands is filled with service, fun, and fellowship. Our day begins with a time of cultural literacy where everyone learns about our local community, state, nation, and world. We conclude our whole group time together with a daily devotional.

Late mornings and afternoons at Helping Hands consist of small groups of team members completing organized tasks and activities under staff supervision. Many of our tasks promote independent living skills.

Some of our tasks include:

- Shredding
- Room preps
- Special events catering
- Mailings

SOCIALIZATION & FUN

Every day at Helping Hands is filled with fun! In addition to our tasks and activities, we eat out at area restaurants, go bowling and watch movies. During lunch and group times we learn more about God and each and each other through socialization and intentional conversations.

Physical activity is also an important part of our day. After lunch we challenge each other to walk a mile inside our climate controlled building. Walking is not a requirement but nearly everyone is able to complete the laps it takes to reach a mile!

OUR SERVICE...

The staff at Helping Hands is committed to providing high quality care for adults who have special needs.

We seek to provide opportunities throughout the day that will encourage those in our care to grow spiritually, socially and in their physical health and well-being.

Helping Hands offers various task-focused “jobs” combined with fun activities to provide a well-rounded experience for all of our adult team members.
